

FOR IMMEDIATE RELEASE

**GARBROOK KNOWLEDGE RESOURCES
SETS A NEW STANDARD WITH
THE LAUNCH OF THE ADVANCED BIOFUELS RESOURCE**

***Comprehensive Knowledge Platform Provides Market Intelligence,
Technology Insight, and Global Policy Information
for the Bioenergy Community***

BEVERLY, MA - September 18, 2008 – Garbrook Knowledge Resources, Inc., is pleased to announce the launch of the Advanced Biofuels Resource, the only comprehensive and constantly updated knowledge resource for the rapidly emerging Bioenergy Industry.

Garbrook's subscription-based resource provides decision makers and industry analysts with ready access to more than 330,000 facts organized into 5000 Digital Pages covering business, science and technology, legislation and policy on a global basis. Information from over 45,000 referenced reports and articles has been extracted and organized into an online resource that is cross-referenced, fully navigable, easily queried, and updated daily.

Using a unique approach to complex knowledge organization, Garbrook combines deep professional expertise with proprietary information technology. Garbrook's multidisciplinary curators use their advanced degrees and specialized training to identify, extract, and organize reliable and relevant information, thereby removing the clutter, bias, and redundancy that plague today's information landscape. The unique Garbrook process generates information products that set a new standard for being simultaneously comprehensive, concise, and up-to-date.

"The bioenergy industry has tremendous information challenges at all levels. With many ideas bubbling up from new technology companies, a complex policy landscape, and a plethora of social, environmental, and security issues all impinging on the world of biofuels, the Advanced Biofuels Resource is an essential tool for anyone working in or following this important industry", says CEO James I. Garrels.

About Garbrook Knowledge Resources, Inc.

Founded in 2005 and based in Beverly, MA, Garbrook Knowledge Resources, Inc., is developing innovative ways to capture, organize, contextualize, and reduce the complexity of information and transform that information into effective knowledge.

Garbrook has developed the authoritative knowledgebase to support market intelligence, strategic analysis, and decision making by elucidating scientific, technical, economic, and policy issues behind complex commercial and societal questions. To learn more, please visit www.garbrook.com
